Match Filled Shapes to Outline Shapes

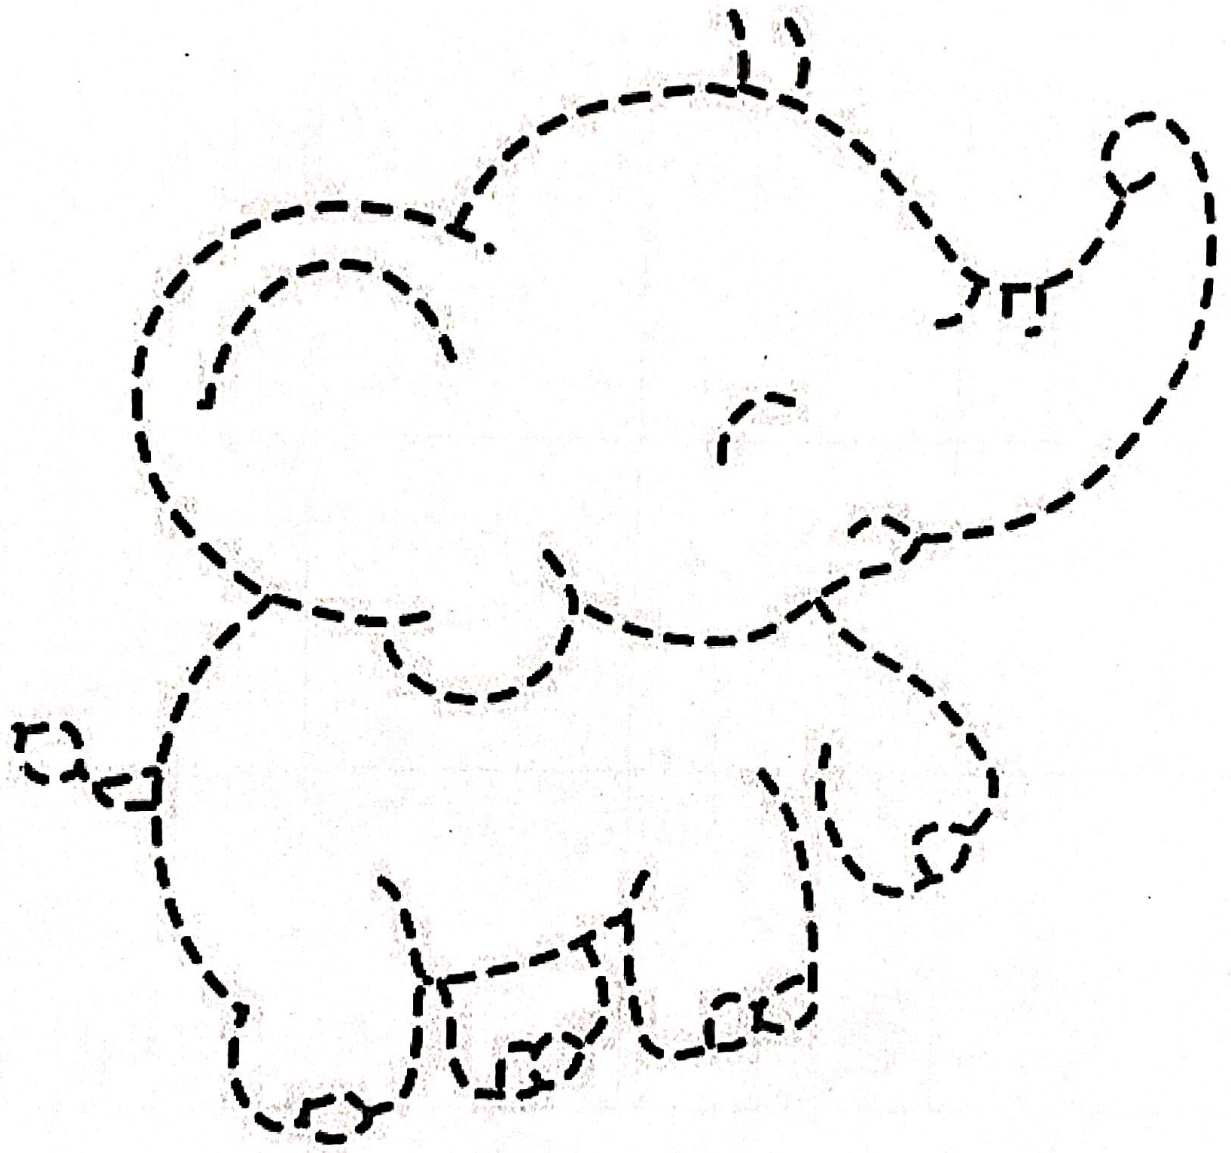

Look at the filled shapes. Draw a line to match each one with the same outline shape.

Counting Objects

Count the number of objects and write the correct number in the circle.

 A central circle is surrounded by six cups. The cups are arranged in two columns of three on either side of the circle.	 A central circle is surrounded by four diamonds. The diamonds are arranged in a cross pattern: one above, one below, one to the left, and one to the right of the circle.
 A central circle is surrounded by five birds. The birds are arranged with one in the center-left, one in the center-right, and three around the bottom half of the circle.	 A central circle is surrounded by eight balls. The balls are arranged in two columns of four on either side of the circle.
 A central circle is surrounded by nine mushrooms. The mushrooms are arranged in two columns of four on either side of the circle, with one mushroom in the center-bottom.	 A central circle is surrounded by eight apples. The apples are arranged in two columns of four on either side of the circle.
